I'm new to React. I've been trying to hide some data by using the Ant Design and that data is in JSON. Here's my code for the JSON file: { "code": "11", "message": "1" } Here's my code for the React JS file: import React from 'react' import { Router, Route, Switch } from 'react-router-dom' import { List, Column, Panel } from 'antd' import { HashRouter } from 'd4474d7b8
