Please try it out to enjoy it. -- Try Related Tools: WHAT'S NEW Version 1.1.1: * Add a new service -- The program can be run as a Windows Service. Now, after installation, bcWebCam is automatically started after system boot up. * Fix the problem when the program cannot start. * Fix the problem when the program is not in the correct application folder. Ease of Use Basics The webcam decoding software allows the users

What's New In BcWebCam?

bcWebCam is an utility that allows you to quickly and easily read various types of barcodes. It supports EAN (European Article Number), 2D, 3D and QR codes. The application has a simple yet practical graphical user interface (GUI). To scan a barcode, you should locate a camera on your system and point it to a barcode on a document, image or web page. bcWebCam will auto-detect the location of the camera on your system and will use it to locate the barcode. A barcode is displayed in a separate window, while the scanned image is sent to a clipboard. The application has a plethora of options to easily control the scanning process. For example, you can define the size of the area displayed in the upper corner of the window and the distance of the camera from the document to be scanned. Another option allows you to rotate the display so that you can read the barcode from different angles. Also, the application automatically detects the type of the barcode and displays the appropriate output window. You can also specify the required length, check sum and skew angle for a 2D or QR code. You can also set a maximum skew angle for a 2D code and a maximum angle of rotation for QR codes. bcWebCam is a fast and handy barcode reader. It is well designed, simple to use and is an excellent tool for extracting data from barcodes in documents, images or web pages. VNCViewer is a free remote desktop sharing program that connects two computers over the internet. It can be used to administer a remote computer, transfer files, or to just view the computer's desktop. VNCViewer supports LAN and WAN connections, and is easy to use. Since it is FREE you don't need to pay anything to use this product. Simple to install. Simply download and install the software. No setup required. Just unzip the file and double click on the 'vncviewer.exe' file. It is very easy to use. Once installed, launch VNCViewer and you're good to go. Connect to your friend's computer and you can see his desktop. Free, for anyone who's never had a VNCViewer account. We hope you enjoy this free software. Let us know if you do and what you think of it by sending us an email with your comments. NordVPN is a free, fast, reliable, and secure VPN service provider that comes from the United States. We help protect users with our powerful VPN technology and we are committed to bringing our users around the world the best customer service and support around.
