Autodesk recently launched two new AutoCAD components for the latest AutoCAD releases. One is called Autodesk Launcher and the other is Autodesk Portfolio. What Is Autodesk Launcher? AutoCAD Launcher lets you automate the way you build products, manage your drawings and get the drawings you need. AutoCAD Launcher supports a number of AutoCAD-specific APIs that include a set of drawing API's that enables designers to initiate actions, modify objects, set layer-based drawing settings and record notes on drawings. AutoCAD Launcher also supports a set of apps that includes a version of Microsoft Office, Autodesk Navisworks, AutoCAD and an updated version of AutoCAD web app. AutoCAD Launcher is available for free at the Autodesk site What Is Autodesk Portfolio? If you are an AutoCAD user, AutoCAD Portfolio is a desktop app which serves as a desktop workspace. It lets you organize your drawings in a way that's easy to find, easy to share, and easy to manage. With AutoCAD Portfolio you can create and manage spaces for your drawings and organization them into containers. You can also share drawings and containers by email and via the cloud. If you are an AutoCAD user, you can also try the newest AutoCAD-killer, Project Ninja. For more information on Project Ninja, click here. How Does AutoCAD Reduce Errors? Autodesk has released AutoCAD 2018, which has a feature called Bridge, which "...provides a bridge between Microsoft Excel and AutoCAD that enables you to open and view spreadsheet data directly in AutoCAD." Why Should You Choose AutoCAD? If you want the latest features in your CAD application, you can choose AutoCAD. You don't have to pay for the latest version of AutoCAD; you can get the latest features with AutoCAD 2018 for free. If you need to collaborate with other designers, you can use the Web app of AutoCAD. If you are an AutoCAD user, you will get the latest features in AutoCAD and will benefit from improvements and enhancements. What Are the Features of AutoCAD 2018? Here's a brief description of the key
