Jan 22, 2561 BC - IATKOS V7 Mac OS X86 Leopard 10.5.7 For PC.torrent ->> > your downloaded iAtkos disk image by double-clicking it; this file will probably be called "iATKOS_ML2.dmg". Then run Carbon Copy Cloner and install . iso file to the C:\ drive. It is recommended to use a different disk partition to save the disk image. If you will be using a different partition to save the disk image, you must select "Save file to disk" instead of "Save as ISO" as the option. The Carbon Copy Cloner icon should appear in the bottom right corner of your desktop. You will then see a window with three sections: Disk Image, Web Image, and Web Image. You must choose where to save the disk image.
