Be on the Lookout for a Software ID In the early days of computers, operating systems used command-line codes or cryptic names to identify software programs. Many programs had cryptic names that were changed to such simple names as "Microsoft Word" or "Microsoft Paint." In the early days of Photoshop, there was a similar tradition, with the program being called "Photo Paint." Today, the world of software is more aware of its titles and names, and it's considered impolite to give a software program a dumb name. Other than Photoshop, there aren't many programs that are still called "Paint." Instead, the makers of those programs play up their characteristics and use names that make them sound more impressive. These days, once you find a software program that you like, you check the bottom of the screen to see what its name is and use that as a shortcut to make it easier to find.

Photoshop elements is different from Photoshop. Photoshop is a full package program and Photoshop Elements is an advanced editor without a plug-in. Photoshop is a powerful tool and Photoshop Elements is a great alternative to edit images. Photoshop has a powerful and complex tool set. Photoshop Elements has a much simpler interface for beginners but still offers great power and simplicity. The interface is designed to quickly snap an image from a camera. The image will immediately be available for all the features, and built in tools are automatically available. Photoshop is a complete image editing suite. It has many features including video editing, advanced tools, retouching, computerized design tools, and so on. Photoshop Elements is a complete image editing tool. Users can do everything that Photoshop can do, plus advanced features including web design, video editing, and more. Both Photoshop and Photoshop Elements is still a major tool for digital photographers. There are many reasons to use Photoshop or Photoshop Elements. You can use Photoshop Elements to create all types of images from everyday snapshots to images that need to be high-resolution and accurately colored. Some basic Photoshop Essentials are shown below: Aperture As discussed in the Introduction, Adobe Photoshop Elements is a basic graphic editing tool. Because of this, you must learn how to use the Aperture function before you start editing. You can open, view, and create images using Aperture. Essential tools such as the Levels tool, Curves tool, and Details tool can be found in Aperture. Aperture and Photoshop, which is a part of the same program. Aperture is organized as a full tree in which objects can be dragged and viewed in a list or grid. You can create a new image or modify an existing image without altering the original source file. Aperture is an important function in Photoshop Elements. If you don't know how to use this function you will be limited in the tools you can use. Basic steps to use Aperture: * Open an image with Aperture by clicking it in the Library. * Select the image and click the Aperture icon in the toolbar or choose Edit > Aperture > Aperture. * The image will be displayed in the grid. Q: What is the purpose of the "redirect" statement in an AJAX response? This seems to be a very common practice and I understand the GET and POST requests are passed into the response object, but I still don't understand why it's even needed to set a redirect URL to /success.php here? $.ajax({ url:"join.php", type: 'post', data: userData, dataType: 'json', success: function(data) { if(data.status == "success") { window.location.href = "/success.php"; } else { alert(data.message); } } }); Why is the window.location.href assigning to success.php considered wrong? A: Because data.status === "success" is not the same as data.status == "success" . CHRISTIE MURPHY/PARK CITY, Utah (AP) — A man suspected in a wild chase involving a police helicopter and a limo was pronounced dead Friday after he was shot by a Utah Highway Patrol officer. This is a developing story. Continue checking back for updates. Christie Murphy/Park City, Utah (AP) — The face of the chase caught on video shows a limo's rear end in the air as police racing alongside, throwing flash-bang grenades, chasing the man on his motorcycle. But the video also shows the man behind the wheel confidently and deliberately aiming a handgun at police officers as the helicopter flew overhead. The man's identity was not immediately released, and it was not immediately known if he had been killed by gunfire from a law enforcement officer, a family member or a relative. Officials, who were not immediately available to comment, said they received information about a man wanted in connection with several burglaries. The man's name was not released. The video, captured Wednesday in Park City, Utah, was released Friday by the Utah Highway Patrol. It is the first time the US public has seen what authorities say was a high-speed chase involving
